

Experience Efficiency Like Never Before

A/P, A/R, and Document Automation

INBOOKS was designed for organizations that want maximum efficiency with document management, payables automation, forms processing and advanced workflow.

All at an affordable price with **no per-document fee**.

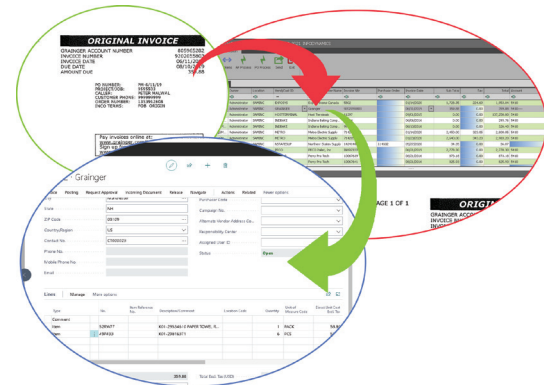

INBOOKS is easy to use and implement, yet powerful enough to make your IT staff happy.

Invoice and Purchase Order Automation

- Neatly integrates with most accounting systems allowing you to view your document directly within your ERP
- Invoice recognition without templates or OCR zone configurations
- 3-Way matching of POs, Receivers, and Invoices

Advanced Workflow

- Automate your document workflow processes
- Data lookups eliminate duplicate data entry and automate naming/filing
- Dozens of conditional routing steps help approve, email and route effortlessly

Document Management

- Customized auto-naming and filing of documents
- Document management for invoices, POs, packing slips, pick tickets, HR, legal, sales orders, etc.
- Access to audit trails
