At Sage, we believe software shouldn't be difficult to learn, hard to update or challenging to use. This is the approach we took when we created Sage CRM. It's an intuitive CRM solution and one which you and your team can get started with and experience within minutes.

02 - Give your teams the tools they need to succeed

Sage CRM supports your business by giving your sales, marketing, and customer service staff, a tool to help them get their job done efficiently. Your sales team can sell proactively, identifying cross-sell and up-sell opportunities, progressing opportunities from lead to close. Your customer service team can manage customer cases effectively, while your marketing team can easily manage their campaigns and generate a quicker return on investment.

03 - Sell smarter and accelerate sales team performance

Your sales team drives the growth of your business, and they need to know they are working on the right leads at the right time. Using Sage CRM, you and your teams can review the stages of various sales deals, shorten the length of sales cycles, and increase revenue opportunities. With access to a wealth of information about their sales pipeline, key opportunities and account activity, your salespeople are equipped to sell smarter and more efficiently, accelerating your sales performance.

04 - Gain valuable business insight

Owners or managers of successful businesses depend on up-to date information and analysis about sales, marketing and customer services activities and performance. Sage CRM supports management with access to important information about their business KPIs in real-time so they can see how a business is performing and take corrective action when needed.
