“AP Automation has been great for us and has cut our processing time in half. All we’re doing is a review of the information that’s in the system and then once it’s approved, it’s done. It’s a wonderful thing. Having one source of truth just gives me that peace of mind.”

-Michelle Pyle, Director of Finance

Family Life Radio is a network of Christian radio stations reaching more than 15 million people in our broadcast area, with 42 radio stations across the United States.

“We’ve cut our invoice processing time in half! We can process the invoices from anywhere, so we don’t need to be directly in the office to get the signatures anymore. The ACH option has been a big plus to our vendors, saving a lot of mail processing time. We’ve also saved money on postage, envelopes, and checks!”

-Tanya Baker, Accountant
